ORACLE OF TAK-UNIBOT

"Streamlining your Admission Queries"

Submitted by:

V.Sowmiya (TU6220206111006)

B.Swathi (TU6220206111007)

ABSTRACT

- A chatbot, usually referred to as a chatterbot, attempts to have a conversation with a person.
- When a question is posed, the system has the ability to detect sentences and select the proper answer
- This project aims to develop a UNIVERSITY enquiry Chabot that answers any queries post by students like college details, course-related questions, location of the college, fee structure etc.
- This System is a web application that provides answers to the query. Any individual
 just has to query through the bot.

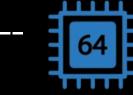

REQUIREMENTS

SOFTWARE REQUIREMENTS:

Operating System

System type

Database

Framework

• IDE

Program ----

Back End ----

• Front End

JAVASCRIPT

HARDWARE REQUIREMENTS:

System

Processor

• RAM

8GB

GGB

Hard disk

Mouse

Keyboard ---

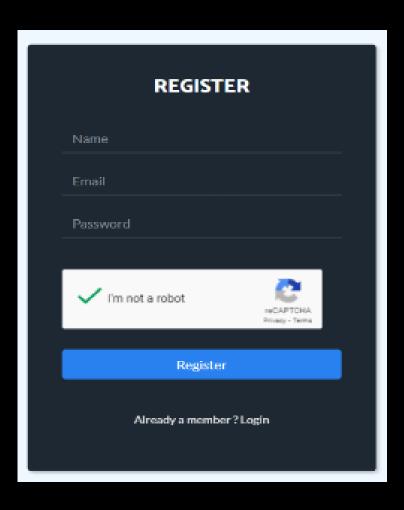

EXISTING SYSTEM

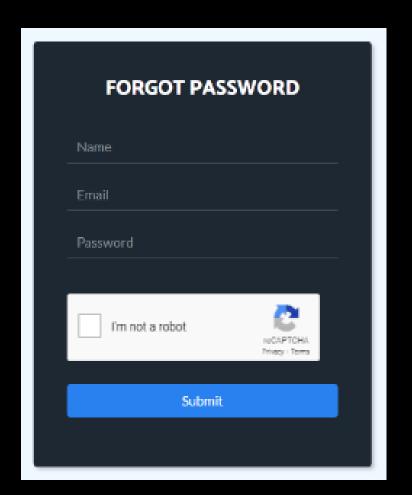

- Knowledge graph creation: the first step is to create a knowledge graph that contains all the relevant information about college programs, courses, and admission requirements.
- **Automation**: unlike the existing system, oracle of tak-unibot automates responses to frequently asked questions, reducing the administrative workload and improving efficiency.
- Ai and machine learning: the new system employs advanced ai and machine learning to accurately interpret and respond to a wide range of queries, offering a more sophisticated and dynamic solution compared to the manual approach.

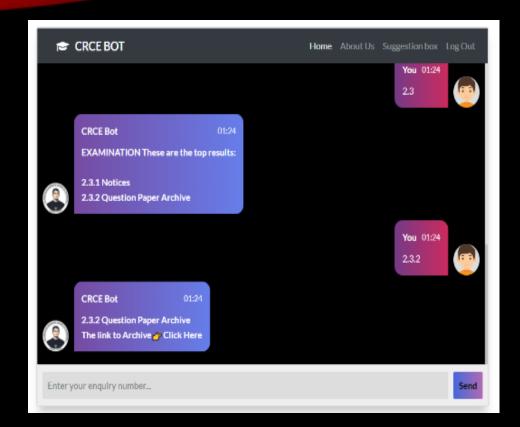

PROPOSED SYSTEM

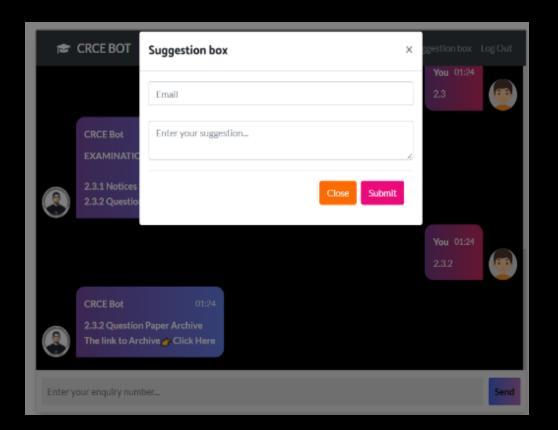

- A Student chatbot project is developed with the help of codeigniter that is widely called a php framework that analyzes user's queries and perceive user's message.
- The proposed System could be a internet application that provides answers to the queries provided by the scholar or the user.
- Students will chat by using any format there's no specific format the user needs to follow.
- The user will question regarding the faculty connected activities through online with the assistance of this internet application. this method helps the scholar to be updated regarding the college related information
